CAVS™ (Content Academic Vocabulary System) Correlated to the Everyday Math Content Standards

Grade 2

This document provides a sampling of the extensive math directives offered throughout the *CAVS* program that meet the Everyday Math Scope and Sequence.

Everyday Math Unit	CAVS Math K–2
Unit 1 Numbers and Routines	Lesson 1: <i>How do you count?</i> Pp. 1–6 Lesson 3: <i>How do numbers work together?</i> Pp. 13–18 Lesson 4: <i>Why do you add numbers?</i> Pp. 19–24 Lesson 6: <i>How are objects the same?</i> Pp. 31–36 Lesson 7: <i>What makes a pattern?</i> Pp. 37–42 Lesson 8: <i>How do you use money?</i> Pp. 43–48 Lesson 9: <i>How do you tell time?</i> Pp. 49–54 Lesson 10: <i>When is your birthday?</i> Pp. 55–60 Lesson 15: <i>How hot or cold is it?</i> Pp. 85–90 CAVS Math 3–5 Lesson 1: <i>How can you put numbers in order?</i> Pp. 1–6
Unit 2 Addition and Subtraction Facts	Lesson 3: <i>How do numbers work together?</i> Pp. 13–18 Lesson 4: <i>Why do you add numbers?</i> Pp. 19–24 Lesson 5: <i>Why do you subtract numbers?</i> Pp. 25–30 Lesson 14: <i>How much does it weigh?</i> Pp. 79–84 Lesson 24: <i>How do we solve problems?</i> Pp. 139–144
Unit 3 Place Value, Money, and Time	Lesson 1: <i>How do you count?</i> Pp. 1–6 Lesson 2: <i>What are some kinds of numbers?</i> Pp. 7–12 Lesson 8: <i>How do you use money?</i> Pp. 43–48 Lesson 9: <i>How do you tell time?</i> Pp. 49–54 Lesson 22: <i>How can you show facts?</i> Pp. 127–132
Unit 4 Addition and Subtraction	Lesson 3: <i>How do numbers work together?</i> Pp. 13–18 Lesson 4: <i>Why do you add numbers?</i> Pp. 19–24 Lesson 5: <i>Why do you subtract numbers?</i> Pp. 25–30 Lesson 6: <i>How are objects the same?</i> Pp. 31–36 Lesson 8: <i>How do you use money?</i> Pp. 43–48 Lesson 11: <i>How far? How long?</i> Pp. 61–66 Lesson 12: <i>How do you tell how far or how long?</i> Pp. 67–72 Lesson 15: <i>How hot or cold is it?</i> Pp. 85–90 Lesson 19: <i>What are some common shapes?</i> Pp. 109–114 CAVS Math 3–5 Lesson 11: <i>How do you measure?</i> Pp. 61–66 Lesson 12: <i>How do you measure flat shapes?</i> Pp. 67–72

	Lesson 14: <i>What are units of measurement?</i> Pp. 79–84
Unit 5 3–D and 2–D Shapes	Lesson 1: <i>How do you count?</i> Pp. 1–6 Lesson 6: <i>How are objects the same?</i> Pp. 31–36 Lesson 9: <i>How do you tell time?</i> Pp. 49–54 CAVS Math 3–5 Lesson 3: <i>How do we count large amounts?</i> Pp. 13–18 Lesson 4: <i>How do we make equal groups?</i> Pp. 19–24 Lesson 16: <i>How do we describe shapes with straight sides?</i> Pp. 91–96 Lesson 18: <i>How do we draw different shapes?</i> Pp. 103–108 Lesson 19: <i>What attributes do solid shapes share?</i> PP. 109–114.
Unit 6 Whole-Number Operations and Number Stories	Lesson 1: <i>How do you count?</i> Pp. 1–6 Lesson 2: <i>What are some kinds of numbers?</i> Pp. 7–12 Lesson 8: <i>How do you use money?</i> Pp. 43–48 Lesson 22: <i>How can you show facts?</i> Pp. 127–132 Lesson 24: <i>How do we solve problems?</i> Pp. 139–144 CAVS Math 3–5 Lesson 2: <i>How do numbers tell a story?</i> Pp. 7–12 Lesson 3: <i>How do we count large amounts?</i> Pp. 13–18 Lesson 4: <i>How do we make equal groups?</i> Pp. 19–24
Unit 7 Patterns and Rules	Lesson 1: <i>How do you count?</i> Pp. 1–6 Lesson 7: <i>What makes a pattern?</i> Pp. 37–42 Lesson 8: <i>How do you use money?</i> Pp. 43–48 Lesson 11: <i>How far? How long?</i> Pp. 61–66 Lesson 12: <i>How do you tell how far or how long?</i> Pp. 67–72 Lesson 22: <i>How can you show facts?</i> Pp. 127–132 Lesson 23: <i>What do you think will happen?</i> Pp. 133–138 CAVS Math 3–5 Lesson 22: <i>How do you compare facts and information?</i> Pp. 127–132
Unit 8 Fractions	Lesson 3: <i>How do numbers work together?</i> Pp. 13–18 CAVS Math 3–5 Lesson 3: <i>How do we count large amounts?</i> Pp. 13–18 Lesson 4: <i>How do we make equal groups?</i> Pp. 19–24 Lesson 5: <i>How do you show that a number is not a whole?</i> Pp. 25–30
Unit 9 Measurement	Lesson 11: <i>How far? How long?</i> Pp. 61–66 Lesson 12: <i>How do you tell how far or how long?</i> Pp. 67–72 Lesson 13: <i>How much space does it take up?</i> Pp. 73–78 Lesson 14: <i>How much does it weigh?</i> Pp. 79–84 CAVS Math 3–5 Lesson 10: <i>What do you use to measure things?</i> Pp. 55–60. Lesson 11: <i>How do you measure?</i> Pp. 61–66 Lesson 12: <i>How do you measure flat shapes?</i> Pp. 67–72 Lesson 13: <i>How do you measure solid shapes?</i> Pp. 73–78

	Lesson 14: <i>What are units of measurement?</i> Pp. 79–84
Unit 10 Decimals and Place Value	Lesson 4: <i>Why do you add numbers?</i> Pp. 19–24 Lesson 6: <i>How are objects the same?</i> Pp. 31–36 Lesson 7: <i>What makes a pattern?</i> Pp. 37–42 Lesson 8: <i>How do you use money?</i> Pp. 43–48 <p style="text-align: center;">CAVS Math 3–5</p> Lesson 12: <i>How do you measure flat shapes?</i> Pp. 67–72
